

Make Yourself Good

📌 About the Project

****Make Yourself Good**** is a simple and user-friendly task management website designed to help users manage their daily tasks, track completion, and monitor their overall performance.

The website allows users to add tasks, set a time for each task, and mark the task as completed, half completed, or not completed.

✨ Features

- Add new daily tasks
- Set a time for each task
- Mark tasks as:
 - ☒ Done – 2 points
 - ☐ Half Done – 1 point
 - ☐ Not Done – 0 points
- Automatically calculate today's task points
- Display the final result for each task
- Show overall daily performance
- Refresh the page to start a new set of tasks
- Simple and attractive user interface
- Responsive design for different screen sizes

🎯 Performance System

| Status | Points |

|-----|-----|

|  Done | 2 Points |

|  Half Done | 1 Point |

|  Not Done | 0 Points |

Performance Levels

- **Excellent** – High task completion
- **Good** – Moderate task completion
- **Poor** – Low task completion

Technologies Used

- HTML5
- CSS3
- JavaScript
